### FERMENTATION:

Fish's Shiraz is hand harvested and immediately transferred to the winery where it is destemmed into open stainless steel fermenters. It is inoculated with EC1118 yeast after 24 hours and spends 6-7 days fermenting on skins before being basket pressed. The wine is then transferred to well-seasoned French Hogsheads for 12 months. The 2014 Fish's Shiraz was bottled without the use of either fining or filtration on the 14<sup>th</sup> of May 2015.
